

src/lattice/base_two
_dimensional_lattice.hpp

```
graph TD; A[src/lattice/base_two_dimensional_lattice.hpp] --> B[boundary_condition.hpp]; A --> C[stdexcept];
```

The diagram illustrates the dependencies of the file `src/lattice/base_two_dimensional_lattice.hpp`. It is represented as a central box at the top, with two arrows pointing downwards to two other boxes: `boundary_condition.hpp` on the left and `stdexcept` on the right.

boundary_condition.hpp

stdexcept
